

Dear Customer, thank you for choosing the L100 Personal Navigator. Please follow the instructions below to set up your Personal Navigator. For more detailed information, please refer to the full User's Guide included on the CD in the box.

Step 1 Installing the L100 Personal Navigator in your car

- 1.1 Set up the car mount kit by fixing the suction cup holder to the back of the cradle (see 1.1) and mounting it to your windshield (or any suitable flat, smooth surface).
- 1.2 Adjust the car holder for the most comfortable view while driving (see 1.2).
- 1.3 Connect the charger to the car holder and cigarette lighter of your car (see 1.3).
- 1.4 Insert the supplied SD Card into the L100 (see 1.4).
- 1.5 Attach the L100 to the cradle as shown in the diagram (see 1.5).
- 1.6 To release the L100, simply press the button at the front of the cradle (see 1.6).
- 1.7 Your L100 will automatically start charging (the LED will show green) (see 1.7).
- 1.8 Press the power button to switch on your L100 .

Step 2 Personalizing your L100 Personal Navigator

- 2.1 The L100 will restart with the Main Menu in the chosen language.
- 2.2 Calibrate the screen: for accurate fingertip usage, please first calibrate the touch screen: go to Main Menu → System → Sys Info. (see 2.3) → Calibration and follow the onscreen instructions.
- 2.3 Now set the date and time by going to the Main Menu → System → Date Time (see 2.4).
- 2.4 To return to the Main Menu  press the home button .

Step 3 Planning your trip

- 3.1 Tap on "Navigation"  or press the navigation button .
- 3.2 Please read the onscreen information carefully and tap on Accept.
- 3.3 After the map appears, please ensure that the L100 has a clear and unobstructed view of the sky (e.g., you're not in your garage, in a tunnel or under a bridge).
The GPS status  should automatically turn green.

Please keep in mind that when using the L100 for the first time, it may take some time to ascertain your position.

Make sure that your current location is identified on the screen . To begin navigation, please press the navigation button  and select Address  from the Main Menu. You will then be prompted to enter a destination. Enter the address details and click  to initiate route calculation.

Now that your route is set, fasten your seatbelt and enjoy your trip!

LiteON

TIPS:

- We strongly recommend that you back up your memory card before use.
- Your SD Card holds your maps. DO NOT delete its content or format the card.
- Make sure your L100 Personal Navigator is in good sight, but that it does not obstruct your view of the road in front of you, or your mirrors.
- For optional accessories for your L100 Personal Navigator, we recommend the L100 accessories. For more information, please go to www.liteon.com or contact your local dealer.

You can find hotline numbers at the back of the L100 warranty booklet. Or, to reach the MobileNavigator smart2go Hotline, refer to hotline numbers in your MobileNavigator User's Guide.
